

Strategy for Shifting the Atmosphere

- The atmosphere over this city and this county is contagious. It affects storm systems, clouds and wind as they pass through and infuses them with Life, Peace and Joy. Thereafter, the only things those systems can distribute is Life, Peace and Joy. They are literally *transformed* as they move through our region.
- All demonic spirits, all destruction, devastation, violence and fear which are driving the systems, clouds and wind are bound as they hit the boundaries of this region. They are muted. They can no longer function or operate.
 - There can be no rotation over this County.
- There will be a rejoicing in the clouds and the wind as they are liberated by the manifestation of the Sons of God and begin to serve their Creator releasing Life, Peace and Joy.
